Summary

Motivated and detail-oriented Software Developer with a strong foundation in HTML, CSS, JavaScript, React.js, Express, and MongoDB. Proven ability to design and develop scalable, responsive web applications, with a focus on performance optimization and user experience. Experienced in leveraging modern technologies to create innovative solutions that meet and exceed project requirements. Skilled in building RESTful APIs with Express, implementing efficient database operations with MongoDB, and delivering high-quality code. Eager to contribute technical expertise, creative problem-solving skills, and dedication to an entry-level position in a dynamic IT environment, driving excellence and fostering organizational growth.

Technical Skills

Languages, & Technologies: JavaScript, Python, HTML, CSS, Bootstrap, React.js, Node.js, Express.js, MongoDB, MySQL, WordPress, Object Oriented Programming (OOPS), API, Database Management, ChatGPT Prompting Git & GitHub, Postman, Figma, Canva,

Projects

Multiple Front-End Projects

- **Gaming Website:** Developed a responsive website with a sleek, gaming-themed design, offering a visually engaging experience with smooth navigation and a user-friendly interface for all devices.

- **Food and Table Booking Project:** Created a front-end app for booking tables and ordering food, focusing on user experience and validation with real-time availability checks and responsive design.

- **Web Chat Application:** Built a React.js chat app with real-time messaging and deletion, ensuring instant interactions and a smooth, responsive user experience.

- **E-commerce Front-End:** Developed a React.js app with product viewing, add-to-cart, and search features, enhancing user engagement with a dynamic interface and seamless navigation.
